

A NONPROFIT CORPORATION DEDICATED TO RESEARCH IN PHOTORETINOLOGY,
THE THERAPEUTIC APPLICATION OF LIGHT TO THE VISUAL SYSTEM

79th International Conference on Light and Vision

April 27-30, 2011

Catamaran Resort and Spa
3999 Mission Blvd
San Diego, California
858-488-1081

Constricted visual fields are common. Vision Therapy is incomplete without the consideration of the functional visual field.

Take the one day Basic and learn how to measure and monitor fields as a milestone in your therapy. Certification offered.

In the advanced course, learn advanced applications of syntonic filters, constitutional body typing, how to use light in treating conditions such as autism and ADD, and the latest advances in Photobiology.

80th International Conference on Light and Vision

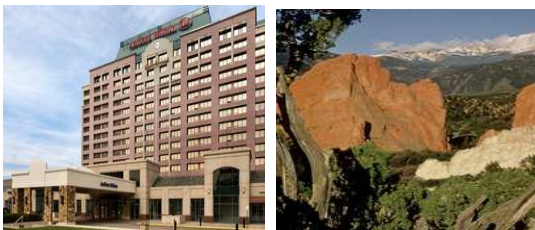

May 2-5, 2012

Antlers Hilton

4 South Cascade Ave

Colorado Springs, Colorado

719-955-5600
