

79th International Conference on Light and Vision

April 27-30, 2011

Catamaran Hotel and Spa
3999 Mission Blvd.
San Diego, California

Special Pre-Conference Workshop
Wednesday April 27th, 2011

How to use Colored Filters during traditional VT Activities

Come hear two outstanding workshop leaders
Stefan Collier, F.O., FCSO, FSOE & Ray Gottlieb, O.D., Ph.D, FCSO

You will learn how wearing syntonics filter gels during traditional VT can improve results for activities such as Brock string, cheirosopic tracing, Marsden ball, yoked prisms, trampoline and multisensory activities. How they enhance performance for balance, posture and movement activities and how filters are applied to enhance convergence, divergence, accommodation, alertness, oculomotor control, speed, timing and to reduce visual crowding, discomfort and distortion.
